

Insurance Distribution Platform

Volume 01 – Vision & Strategy

Executive Vision

Build a bank-owned, insurer-agnostic insurance distribution platform that owns the complete insurance distribution journey from lead creation through policy issuance. Initially integrate with 1SilverBullet where needed and progressively transition to direct insurer integrations while preserving a stable business model.

Business Drivers

Own the customer journey; improve RM productivity; standardize insurance sales; increase visibility and reporting; reduce dependency on external aggregators; accelerate insurer onboarding.

Current State

Insurance journeys are fragmented across external platforms with inconsistent visibility and operational control.

Target State

The platform owns customer, RM workspace, lead, consent, suitability, product catalogue, quote orchestration, proposal, payment tracking, policy lifecycle, reporting and administration.

Strategic Objectives

Independent platform ownership; configurable business rules; insurer-agnostic integrations; consistent user experience; auditability; scalability; enterprise governance.

Guiding Principles

Business before technology; canonical business model; configuration over code; replaceable integrations; security by design; traceability; observability.

Scope

Core capabilities include Customer, RM, Lead, Consent, Suitability, Product Catalogue, Quote, Proposal, Underwriting Tracking, Payment, Policy, Reporting, Administration and Integration Hub. Initial exclusions include insurer core systems and claims administration.

Transformation Roadmap

Phase 1: 1SB integration. Phase 2: Hybrid integration. Phase 3: Direct insurer integrations. Phase 4: Mature enterprise integration hub.

Success Measures

Improved conversion, faster onboarding, reduced RM effort, full journey visibility, high availability, operational efficiency.

Strategic Capability Map

Business Layer	Capabilities
Acquisition	Customer, RM, Lead
Advisory	Consent, Suitability, Recommendation
Sales	Product Catalogue, Quote, Proposal
Fulfilment	Underwriting, Payment, Policy
Operations	Reporting, Communication, Administration
Platform	Identity, Audit, Integration Hub, Configuration
