

Insurance Distribution Platform

Volume 04 – Stakeholder Catalogue

Scope & Disclaimer

This document catalogues the stakeholders identified from the discussions held so far. It is intended to be the stakeholder baseline for business analysis. It does not claim that every stakeholder in the final programme has been identified; additional stakeholders may emerge during detailed discovery and governance workshops.

Executive & Governance

Business Sponsor

Attribute	Description
Primary Objective	Fulfil responsibilities related to business sponsor.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.

Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Programme Sponsor

Attribute	Description
Primary Objective	Fulfil responsibilities related to programme sponsor.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Steering Committee

Attribute	Description
Primary Objective	Fulfil responsibilities related to steering committee.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.

Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Enterprise Architecture Review Board

Attribute	Description
Primary Objective	Fulfil responsibilities related to enterprise architecture review board.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Compliance & Risk

Attribute	Description
Primary Objective	Fulfil responsibilities related to compliance & risk.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Information Security

Attribute	Description
Primary Objective	Fulfil responsibilities related to information security.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Legal

Attribute	Description
-----------	-------------

Primary Objective	Fulfil responsibilities related to legal.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Audit

Attribute	Description
Primary Objective	Fulfil responsibilities related to audit.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Sales & Distribution

Relationship Manager (RM)

Attribute	Description
Primary Objective	Fulfil responsibilities related to relationship manager (rm).
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Branch Manager

Attribute	Description
Primary Objective	Fulfil responsibilities related to branch manager.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Regional Manager

Attribute	Description
Primary Objective	Fulfil responsibilities related to regional manager.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Sales Head

Attribute	Description
Primary Objective	Fulfil responsibilities related to sales head.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Insurance Business Head

Attribute	Description
Primary Objective	Fulfil responsibilities related to insurance business head.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Customer

Existing Customer

Attribute	Description
Primary Objective	Fulfil responsibilities related to existing customer.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

New Customer

Attribute	Description
Primary Objective	Fulfil responsibilities related to new customer.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Prospective Customer

Attribute	Description
Primary Objective	Fulfil responsibilities related to prospective customer.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Nominee

Attribute	Description
Primary Objective	Fulfil responsibilities related to nominee.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Operations

Operations Executive

Attribute	Description
Primary Objective	Fulfil responsibilities related to operations executive.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Back Office

Attribute	Description
Primary Objective	Fulfil responsibilities related to back office.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Policy Servicing Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to policy servicing team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Customer Support

Attribute	Description
Primary Objective	Fulfil responsibilities related to customer support.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Quality Assurance

Attribute	Description
Primary Objective	Fulfil responsibilities related to quality assurance.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Insurance Partners

Partner Insurer

Attribute	Description
Primary Objective	Fulfil responsibilities related to partner insurer.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Underwriting Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to underwriting team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Medical Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to medical team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Insurer Operations

Attribute	Description
Primary Objective	Fulfil responsibilities related to insurer operations.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Partner Relationship Manager

Attribute	Description
Primary Objective	Fulfil responsibilities related to partner relationship manager.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Platform Administration

Product Owner

Attribute	Description
Primary Objective	Fulfil responsibilities related to product owner.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Business Analyst

Attribute	Description
Primary Objective	Fulfil responsibilities related to business analyst.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Platform Administrator

Attribute	Description
Primary Objective	Fulfil responsibilities related to platform administrator.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Configuration Administrator

Attribute	Description
Primary Objective	Fulfil responsibilities related to configuration administrator.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Reporting Administrator

Attribute	Description
Primary Objective	Fulfil responsibilities related to reporting administrator.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Technology

Engineering Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to engineering team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Solution Architect

Attribute	Description
Primary Objective	Fulfil responsibilities related to solution architect.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

DevOps

Attribute	Description
Primary Objective	Fulfil responsibilities related to devops.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Integration Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to integration team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Data Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to data team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

QA Team

Attribute	Description
Primary Objective	Fulfil responsibilities related to qa team.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

External Systems

Core Banking

Attribute	Description
Primary Objective	Fulfil responsibilities related to core banking.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

CRM

Attribute	Description
Primary Objective	Fulfil responsibilities related to crm.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Identity Provider

Attribute	Description
Primary Objective	Fulfil responsibilities related to identity provider.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Notification Services

Attribute	Description
Primary Objective	Fulfil responsibilities related to notification services.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.

Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Payment Gateway

Attribute	Description
Primary Objective	Fulfil responsibilities related to payment gateway.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

1SilverBullet

Attribute	Description
Primary Objective	Fulfil responsibilities related to 1silverbullet.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Future Direct Insurer APIs

Attribute	Description
Primary Objective	Fulfil responsibilities related to future direct insurer apis.
Responsibilities	Participate in defined business processes, approvals, decisions and reporting.
Key Interactions	Customer, RM, Operations, Product, Integration partners (as applicable).
Information Required	Role-specific customer, product, lead, quote, proposal or policy information.
Success Measures	Accurate execution, compliance, turnaround time and customer satisfaction.
Business Capabilities Used	Only those required for the stakeholder's responsibilities.
Future Considerations	Role may evolve as new insurers, products and channels are added.

Stakeholder Interaction Principles

- Customer remains at the centre of all journeys.
- RM is the primary assisted-sales actor.
- Business owns business rules and product decisions.
- Technology enables but does not own business policy.
- Integration partners expose insurer capabilities without owning the bank customer journey.
- Every stakeholder action must be auditable and role-based.

Next Step

Subsequent iterations should expand each stakeholder into detailed personas, permissions, RACI matrices, KPIs, approval authorities, communication responsibilities, and journey-specific interactions.
